WAVE

INTRODUCTION

WORLD UAV FEDERATION was established in June 2017 by Mr. Jincai Yang (Chairman). Its launching ceremony was held on October 31, 2017 in Shenzhen, China. Till today, WUAVF chapters include: Thailand, Malaysia, Singapore, the USA, Australia, Bangladesh, the Philippines, South Korea, Egypt, Greece, Russia Tatarstan, Indonesia, Finland, China, China Hongkong, etc. Having already accepted 33 international WUAVF members, we sincerely welcome other organizations from different countries and regions who are interested in joining us as one of our chapter members.

WUAVF appointed Professor Chunlin Shen, Mr. Zhiming Xu and Mr. Feng Pan from China, Mr. Ante Glibota from France, Mr. Shaukat Aziz from Pakistan, Mr. Phongthep Thepkanjana and Mr. Korn Dabbaransi from Thailand, Mr. Thomas Grüner from Germany, Mr. Volodymyr Isaenko from Ukraine, Mr. Yukio Hatoyama from Japan, etc. as our international consultants. Led by Chairman Mr. Jincai Yang, together with Vice-chairman Professor Yubin Lan, Mr. Jani Hirvinen and Mr. Jonathan Evans, WUAVF, the organization for drone systems and professionals, is playing a leading and more influential role in the advancement of professionalism within drone industry in each region. WUAVF captivates an ever-increasing enthusiasm through remarkable achievements thanks to the dedication, unity and co-operation of its country and regional chapters.

Additionally, WUAVF, which publishes, distributes and circulates pamphlets, newsletters, periodicals and other literature on drones, serves as a bridge between industry members and the governments. It holds exhibitions, conferences, symposiums, seminars, forums, congresses and conducts training courses for the members who have vested interests in drone industry. The 7th Drone World Congress and 8th UAV Expo will be held again on May 26–28th 2023 in Shenzhen, China. Welcome to join us!

WUAVF International Headquarter is based in Hong Kong and Secretariat Office in Shenzhen, China.

CHARTER

World UAV Federation CHARTER

1. Vision

“UAV Connecting World”. The World UAV Federation (WUAVF) is a federation designed to unite the global UAV/UAS community around the principles of fairness, honesty, innovative, sharing, open communication, and “win-win” strategic cooperation.

The WUAVF is guided by a charter, originally signed by representatives of international UAV/UAS industry associations/groups, societies and law enforcement organizations from 17 different countries and regions, which promotes the building and maintaining of an international resource network dedicated to the advancement of fair international trade policies, support of beneficial trade exhibitions and conference programs, development of education and certification programs, identification and development of accurate market research, and support of technology standards and best practices for the global UAV community.

The WUAVF’s theme of “UAV Connecting World” underscores the WUAVF’s value as a force multiplier resource and platform for like-minded organizations that are working towards the common goal of a safer and more secure global community.

2. Mission

It is the mission of the World UAV Federation (WUAVF) to promote information sharing among multi-national UAV/UAS organizations, to strengthen bilateral and multilateral cooperation and to be a catalyst for the responsible development of a global UAV/UAS community.

3. Origins

The “concept” of a World UAV Federation (WUAVF) is not a new one and certainly over the years there have been many industry visionaries from various countries and UAV/UAS organizations around the world who have proposed some iteration of what would constitute such an Association. Yet for whatever the mitigating reasons the timing did not prove right for those visions to be realized.

Then in 2013, during the CES in Las Vegas, USA, a cooperative agreement between several UAV/UAS associations laid the foundation for what was to become the WUAVF. Steady and regular dialogue over the next two years culminated in 2015 that the WUAVF concept was formally given structure on the back of a napkin after a long exchange between international delegates over dinner in a small restaurant.

Aligning with the growing global focus on emerging markets, the Association was founded by several UAV/UAS associations over the world. These associations would work over the next four years to evolve from a voluntary non-binding partnership into an independently run and registered Hong Kong-entity with headquarter and staff located in Shenzhen, China.

In 2017, under the leadership of the Shenzhen UAV Industry Association (SZUAVIA), during the International UAV Expo in Shenzhen, the Association gained 17 members, a revised charter, structure, and new headquarters location. At that Expo, all members met and signed on to a non-binding global UAV/UAS industry declaration that was to become the charter for the new WUAVF.

The original concept in 2013 was simple: “win-win” strategic cooperation– we all work to find ways to successfully support each other and by extension the entire UAV/UAS industry and community. To this day this founding principle has stayed at the heart of everything the Association does on behalf of its members and the entire global UAV/UAS community. It is an organization that supports the founding charter principles of fairness, honesty, innovation, sharing, communication, and strategic cooperation.

Today the WUAVF serves as a “concierge” and shared “living” resource repository for the global UAV/ UAS community. The WUAVF’s programs and services are designed to be used interchangeably at either the Local or Global level. While WUAVF works at the global level to actively promote industry resources and organizations, it also works find ways to bring those global resources to support the local activities of its individual members and strategic partners. This local support is often in a “behind the scenes” customized role so as not to overshadow or distract from the prominence of the Association member WUAVF is there to support.

The WUAVF’s theme of “UAV Connecting World” underscores WUAVF’s value as a force multiplier resource and platform for like-minded organizations who are working towards the common goal of a better and more intelligent global community.

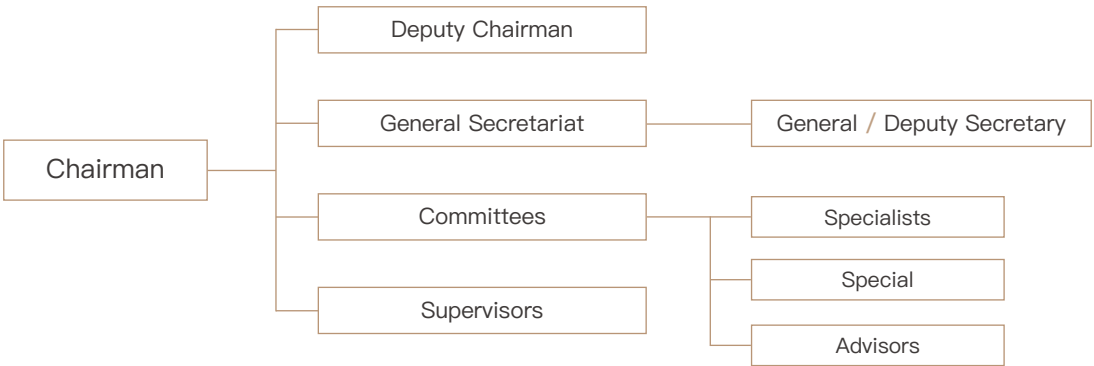

4. Voting Right

1. Right. WUAVF enacts a rule on the voting right for Individual members and group members on General Assembly and Executive Committee. During the voting period, the member who presents at the conference can and can only represent one client.
2. National Committee vote. National committee or international committee have the right to designate five members of the committee (individual members or representatives of designated group members) to vote on behalf of the committee in matters that are submitted to General Assembly for voting.
3. The affiliated organization vote. An affiliated organization has the right to designate three members (individual members or representatives of designated group members) to vote on behalf of the organization in the matters that are submitted to General Assembly.
4. Nonvoting members. Sponsoring members and honorary members do not have voting rights in General Assembly.

6. Structure of WUAVF

02

MEMBERS

International Consultant Chairman
Chairman
Vice-chairman
Secretary General
Presidents of WUAVF Chapters
Chairman of Committee

Phongthep Thepkanjana

Former Deputy Prime Minister of Thailand
Judge, several provincial courts
Chief Judge affiliated to the Ministry
Deputy Secretary-General, Office of the Judicial Affairs Deputy Spokesman,
Office of the Prime Minister
Member, the Constitution Drafting Assembly, which drafted Thailand 1997
Constitution Deputy Leader, Thai Rak Thai Party
Member, the House of Representatives Minister affiliated to the Prime
Minister's Office Deputy Prime Minister and Minister of Education

Korn Dabbaransi

Former Deputy Prime Minister of Thailand
President of Thai Chinese Friendship Association
Deputy Minister of Industry
Chairman of the House Committee on Industry
Chairman of the House Committee on Energy
Minister of Industry and Energy; Minister of Health
Former President of the International Badminton Federation (IBF)
Former President of American University Alumni Association

Shaukat Aziz

Mr. Shaukat Aziz graduated from Gorden College, Rawalpindi in 1967, and received an MBA degree from the Institute of Business Administration, University of Karachi. As Executive Vice President, he had held several senior management positions at Citibank including head of institutional banking for Central Eastern Europe, the Middle East and Africa, and later for Asia Pacific, followed by Chief Executive of the bank's global wealth management business. Mr. Aziz co-chaired the UN Secretary-General Committee to promote reform and coherence at the United Nations. As Prime Minister, Mr. Aziz paid state visits to China in 2004 and 2007. In 2015, Mr. Aziz became a board member of the Boao Forum for Asia.

Yukio Hatoyama

Former Prime Minister of Japan. Mr. Yukio Hatoyama, born 11 February 1947, is a former Japanese politician who served as Prime Minister of Japan from 16 September 2009 to 8 June 2010. He was the first Prime Minister from the modern Democratic Party of Japan.

Chairman of the Institute of East Asian Community, Honorary Professor of Xi'an Jiaotong University, Honorary Professor of Northwest Agriculture and Forestry University.

Ante Glibota (1945–2020)

Mr. Ante Glibota, Vice-Chairman of the European Academy of Sciences, Arts and Letters (EASAL), economist, art and architectural historian, and author. As author and publisher of over 220 books and catalogues, devoted to contemporary art, architecture, and literature he has created many rare books in limited editions with important contemporary artists and poets. He was received the 'Distinction Marko Marulic', the highest award for cultural achievement of the Republic of Croatia in 1996, as well as the Order of National Flag in the same year. From 2010 to 2016, he served as Vice-President and Curator-in-Chief of the Museum of Art and Urbanity in Shanghai, China. In 2019, Ante Glibota was appointed as the Honorary President of the World UAV Federation, Shenzhen, China.

Zhengqing Bi

Mr. Zhengqing Bi, French Chinese, bass singer of French National Radio Choir, and academician of the European Academy of Sciences Arts and Letters in France. In 1983, Zhengqing Bi came to France with his wife after graduating from the Central Conservatory of Music. During their time in France, with the establishment of the Yellow River Art Troupe, Zhengqing Bi took the group to perform in European countries, and then entered the French National Radio Choir and founded the European Institute of Daoyi to spread the Chinese Taoist culture.

Rob Thompson

Mr. Rob Thompson holds a Master of Science from James Madison University. Rob is also the founder of Falcon Foundation UAS L.L.C. who provides leading advocacy efforts in the unmanned aircraft systems industry, managing government relations, committees of the association, executing legislative and regulatory strategies, and creating law through the corresponding legislative committees. Rob's past projects for research and innovation include: C-UAS, flight instrument haptic sensing, infrared runway traffic signals, pilot selection process, positive attributes of pilots, application development, UAV development, advanced display systems, robotics, wearables, 3D printing, advanced manufacturing, data collection, and sensors. Rob also has flight experience in 80 different models of aircraft and flown professionally as an ISR pilot, skydive operations, general aviation transport and aerial image operations.

Kenzo Nonami

Dr. Kenzo Nonami has been a full professor in the Department of Mechanical Engineering at Chiba University since 1994. Dr. Kenzo Nonami was in charge of the Vice President of Chiba University from 2008 to 2013. Right now, Dr. Nonami is an emeritus professor at Chiba University, CEO of his company called "Autonomous Control Systems Laboratory, Ltd." and a Chairman of Japan Drone Consortium which includes more than 300 companies. His recent research interests are fully autonomous drones, namely, fully autonomous unmanned multi-rotor helicopters and VTOLs as UAVs with GPS or GPS-denied environments, advanced robotics, and mechatronics.

Christoph Strecha

Dr. Christoph Strecha is the CEO and founder of Pix4D, a Swiss company which develops and markets software for production of survey grade 3D models and orthomosaics from images. Strecha received a PhD from the Catholic University of Leuven (Belgium) in 2008, and completed his thesis on multi-view stereo, and he has also published many academic articles. His research interests include structure and motion techniques and city modeling. He was and is involved in the work of several Commissions of the International Society for Photogrammetry and Remote Sensing. In recognition of his remarkable achievements in three-dimensional reconstruction of computer vision and drone photogrammetry, the world-recognized Carl Pulfrich Award was presented to him in 2015.

Thomas Grüner

Aviation Expert. Mr. Thomas Grüner, born in 1977, became an aviation enthusiast very early in his life and has been engaged in model flying since the age of five. He worked in different areas of aviation, e.g. as an aviation mechanic, aircraft inspector, quality assurance manager, pilot, and flight instructor. As an aviation expert he runs the Luftfahrtsachverständigenbüro Thomas Grüner where he works full-time as a technical expert and consultant for his aviation customers. The main tasks of expert services include the forensic preservation of traces and evidence, accident reconstruction, expert opinions and damage appraisals, aircraft assessments as well as provision of other kinds of expertise.

Zhiming Xu

President of Hong Kong International General Chamber of Investment
Mr. Zhiming Xu, who holds a Doctorate, was born in February 1964 in Gaozhou, Guangdong, China. Currently, he is the chairman of the board of directors of Zhonglian Petrochemical International Co., Ltd., Liaoning Xinmin Petrochemical Co., Ltd., etc. Over the past decade, Dr. Zhiming Xu has donated more than 300 million Hong Kong dollars to support China's social development and human poverty alleviation and was awarded the Prize for the Advancement of Peace for Mankind by the United Nations.

Haydar Ates

Asst. Prof. Dr. Haydar ATES, PhD, is from Ankara, Turkey. He is the faculty member of the University of Turkish Aeronautical Association, the first institution of its kind on aviation and space sciences in Turkey. His focus is on management. His PhD is from Hacettepe University, Ankara, Turkey. He has lots of books in Turkey, book chapters in the USA and Switzerland, and articles published in the international area. Dr. Haydar ATES also served in the Turkish Army as an officer and retired as Colonel. During his career he commanded national and multinational troops and organizations in conflict areas around the world, such as Multinational Force Commander in West Bank, Palestine, NATO ISAF (International Security Assistance Force) Central Commander in Afghanistan, etc.

Feng Pan

Vice President of China–Europe Association for Technical and Economic Cooperation (CEATEC).
Chairman of European Union Working Committee.

Thomas Pfau

Mr. Thomas Pfau has been working as a political and business consultant in several EU projects in MSOE countries since 1990. Active as a consultant in many different projects of Germany Federal Ministry of Economics to support German SMEs informing foreign markets since 1996. Now, Mr. Pfau mainly Concentrated on helping SMEs to start their business activities in foreign markets, active in the IT– security scene in Berlin and Germany together with experts to establish connections in Shenzhen and other parts of China with his possibilities. In 2014, Mr. Pfau organized a business delegation (the first from Germany) to Shenzhen and Beijing to present their products and services from the civil security industry and of the disaster management sector in Germany.

Haydar Yalcin

Mr. Haydar Yalcin has a degree in Aeronautical Engineering and has been working for the Turkish Directorate General of Civil Aviation (DGCA) since 1989. He is currently working for the DGCA as the Deputy Director–General since December 2004. He has served in various positions throughout his career in the Turkish DGCA, including Aviation Safety Inspector, Maintenance and Airworthiness Inspector, Director of Airworthiness and Maintenance division and Head of Flight Standards Dept. He is the Former President of the EUROCONTROL Provisional Council, Vice Chairman of ICAO EUR–NAT (Europe–North Atlantic) Regional Aviation Safety Group (RASG), and RASG Coordination Group (RCOG), and the member of the Board of Governors of the Flight Safety Foundation (FSF).

Volodymyr Isaenko

Professor, Doctor of Biological Sciences (2004) Candidate of Technical Sciences (1985).

Merited Worker of Education of Ukraine, Professor of the Ecology Department of the National Aviation University (2005).

Academician of the Academy of Sciences of the Higher School of Ukraine.

Ildar Utiamyshev

The Vice-president of Russian Academy of Natural Sciences. Secretary General of Natural Monopolies Regulation Department, Russian Academy of Natural Sciences. Chairman of Tatarstan Regional Chapter of Russian Academy of Natural Sciences. Coordinator of International Cooperation. Chairman of Tatar Center for Support of Academic Science Development. Experienced in technical and research project management, expertise. Organized International conferences, seminars and exhibitions on Innovational technologies in Soviet Union, Russia, USA, Australia, Brazil, Greece, Egypt, Mongolia, Bulgaria, China, Austria, Germany, Czech Rep. Author of more than 80 publications, including 2 monographs and 7 patents.

Robert Molhoek

Robert Molhoek is an Australian Liberal National politician who is a member of the Legislative Assembly of Queensland for Southport, having defeated Peter Lawlor at the 2012 state election. He was appointed Assistant Minister for Child Safety on 3 April 2012.

CHAIRMAN

Jincai Yang

Honorary academician of European Academy of Sciences Arts and Letters (EASAL).

Visiting professor of Beihang University.

Distinguished professor of China People's Police University.

President of National UAV Association Cooperative and Mutual Aid Alliance.

President of Shenzhen UAV Industry Association.

President of China Shenzhen Security & Protection Industry Association.

VICE-CHAIRMAN

Jonathan Evans

Jonathan Evans is the Co-founder and Head of Innovation of Skyward, a Verizon Company. As a well-established and category-creating drone operations platform for the enterprise, Skyward was acquired by Verizon in February of 2017 and is now leading the industry into the exciting new era of the connected drone and networked fleet deployments of autonomous aerial robots. Jonathan was a professional aviator for 18 years, serving as a UH60 Blackhawk pilot in the U.S. Army, as well as a network administrator during a time when the Army was entering the Information Age and establishing its first secure networks for Internet and email. He is a standard-bearer for global interoperability as founding President of the Global UTM Association.

Yubin Lan

Dr. Yubin Lan, the member of European Academy of Sciences, Arts and Humanities (EASAL), President of International Society of Precision Agricultural Aviation, Academician of the Georgian National Academy of Science, a Scientist in precision agriculture, who has long been engaged in precision agricultural research for 30 years, especially in precision agricultural aviation. He first proposed the concept of "precision agricultural aviation" in the world (2005) and took the lead in research work on the combination of agricultural aerial remote sensing and precision aerial spraying in the world.

Jani Hirvinen

Mr. Hirvinen was born to the aviation family of Finland, a globally known pioneer in unmanned technologies. Founder of the well-known international Unmanned Organizations: ArduPilot, DIYDrones, and DroneCode. He is the original creator of the ArduCopter platform. Jani is a multi-tasking, experienced aviation, and electronic prodigy. He has been involved in building both unmanned and, full-sized manned aircraft for over 40 years. He has also been dealing with various IT platforms, complex electronics, and advanced robotics for over three decades. Jani holds several global awards for Unmanned Industry and position in global organizations. Thai Unmanned Industries Co., Ltd. CEO. World UAV Federation, Vice-chairman. Shenzhen UAV Industry Association, Board member of Experts Committee.

SECRETARY GENERAL

Norman Ng

International Director of CPSE
Secretary-General of International Aviation Security Association
International Secretary General of Asia Pacific Security Association
Joint Secretary General of World UAV Federation

Hong Kong, China

World UAV Federation Chapters

33

Established Chapters

PRESIDENTS OF WUAVF CHAPTERS

Malaysia Chapter

Dato' Lester Tay Kean Boon

Dato' Lester is the Co-Founder & President of Malaysia UAV Developments Association (Persatuan Pembangunan UAV Malaysia). Internationally, he is serving as the Chairman of the World UAV Federation– Malaysia Chapter, and the International Honorary Secretary of International UAV Application Industry Alliance as well as the International Secretariat for Asia Pacific UAV Industry Union.

Ukraine Chapter

Oleksandr Ivanov

1979 — 1985: Radio engineer, Kyiv Institute of Civil Aviation Engineers. Kyiv, Ukraine Master. 2006 — 2010: Head of the Trade and Economic Mission of Ukraine in South Korea. 2010 — till the present time. National Aviation University, Head International Relations Department

1. organization of diplomatic mission visits;
2. participation in negotiations;
3. work with Contracts and Agreements;
4. collaboration with different organization;
5. work with documents.

USA Chapter

Patrick Egan

Mr. Patrick Egan is the editor of the Americas Desk at sUAS News and host and Executive Producer of the sUAS News Podcast Series, Drone TV, and the Small Unmanned Systems Business Exposition. He also serves as the Director of Special Programs for the Remote-Control Aerial Photography Association. Patrick has spent the last 10+ years working as a proponent for the business use of unmanned aircraft systems. He offers expertise on integrating drones into the national airspace, local and federal regulations, the state of the drone industry, and perspectives from small commercial drone business.

Australia Chapter

Ben Trollope

Chief Executive Officer, The Ripper Group Pty. Ltd.

Ben is the Chief Executive Officer of The Ripper Group, responsible for the oversight of all 14 subsidiary companies under the Ripper Group Banner. The Ripper Group is front paged by the world renowned Westpac Little Ripper Rescue drones, responsible for the world's first Marine rescue by drone in January 2018. The program was also prevalent in Bushfire response and recovery of Wildlife post the devastating 2019/2020 bushfire season, and more recently the sanitisation of public areas during COVID-19.

Australia – Queensland Chapter

Miguel Chiu

Miguel Chiu is the CEO of All Sun Group since 2009 and has been involved in property development, project marketing, property management businesses, and migration service since 2009. As a successful property developer, Miguel is also active in lecturing in Investment, and Asset Management and currently is incorporating Hi-Tech Investment Fund under World UAV Federation Queensland Chapter. As a joint founder in Coomera Garden Hotel Project, Gold Coast in 2016, which has a cap of \$80 mil AUD after fully operative in 2013 will involve in Hi-Tech businesses both in China and in Australia.

Indonesia Chapter

Ir. Sanny Suharli

Sanny Suharli is a well-known security expert in Indonesia. He has kept exploring the security of the world since 1984 and introduced many new security technologies to the world. Sanny Suharli served as the designer of the electronic security system of the Presidential Palace in Indonesia and participated in The Jakarta GIS Summit in 2001. He also took charge of the design and operational security system during the ASEAN Summit in Bali 2004 and assisted the investigation Bali Bombings in 2002. As well as the West Makassar explosion incident in 2003.

PRESIDENTS OF WUAVF CHAPTERS

South Korea Chapter

Kwan Min Park

Mr. Kwan Min Park established Korea Drone Association. Elected as its president, he published the Korea's first drone magazine, and an application for safe flight management, aiming to expand drone culture regarding safety, and to activate drone industry. He also was elected as the first president of Drone Sports International, leading development and expansion of drone sports in the world. He was awarded a Master's degree in Urban Planning by University of Southern California, USA, and a Ph.D in the same field by Dankook University. Currently, he is an associate professor of Real Estate & Construction at the graduate school of Dankook University and is a board member of Green City Committee at Korea Land & Housing Corporation.

Bangladesh Chapter

Eng. MD. Safiqul Islam

Md. Safiqul Islam is a security professional and currently Managing Director of Baba Shahjalal Engineering Works, a security printing firm. His administrative duties and memberships include: Rassco Computers Ltd. S and S (HK) Development Co., Ltd, Shahjalal Digital Graphics, Asian Anti-Counterfeit Association (Bangladesh Chapter), World UAV Federation (Bangladesh Chapter). Having built a reputation as a subject matter expert, he has successfully managed various personal protection programs and participated in major industry events in Europe, USA and Bangladesh. He has developed one of the highest security industry product –documents into ractive instructional programs. He has also developed Digital Flexo Printing technology in Bangladesh, the latest innovation in printing and machinery.

Greece Chapter

John Dagklis

John Dagklis is a certified security professional, trainer, and risk management consultant with 20+ years of combined experience from the Army Special Forces and the private sector. He is currently the Managing Director of JDAS (J.D & Associates), a security firm that provides protective services and risk avoidance solutions to C-level corporate executives, high net-worth individuals and delegations traveling to Europe, Middle East and Africa. Having built a reputation as a subject matter expert, In 2011, he received one of the highest securities instructor's certifications worldwide from the National Bodyguard Association of Russia according to Executive Protection Global Standard (EPGS).

Tatarstan Chapter

Dr. Hismetov Niyaz

Honourable Mechanician of Russia, President of the World Association of Engineers. Dr. Hismetov Niyaz has 2 higher–education degrees: aviation and agrarian. He began his career in an aviation company, went into business a few years later, and now is headed by a holding company of 8 metal processing plants, the manufacture of metal products, and the production of agricultural machinery. has 160 scientific publications, 17 inventions, 13 patents.

Egypt Chapter

Ahmed Adel Tawfik Afifi

Exceptional leader with 30–year experience in different security services in particular state security. Talented in assessing and evaluating security risks and managing crises and Catastrophes, also the ability to coordinate between different Specializing sides to achieve integration of roles. Skilled at managing Security institutions efficiently and effectively and the development of concepts and methods of security performance. Establishing, developing, and managing Information Analysis and Security Forecasting Centers. Design of all organizational security structures, database, and conservation systems.

Russia Chapter

Aleksandr Timofeev

Aleksandr Timofeev has extensive experience in attracting investment both in Russia and globally, for numerous international high–tech projects, and graduated from the Moscow Institute of Physics and Technology and Latvian State University in Physics. Founder and CEO, Microbor–Nanotech. Founder and CEO, InvestKinoProject. Founder and Managing Partner, FPI innovation fund.

PRESIDENTS OF WUAVF CHAPTERS

Finland Chapter

Pertti Jalasvirta

Pertti's 30-plus years of work history is proof of his solid background of professional expertise in government affairs, resource management, administrative management, planning of organizational development in military medicine, education and hospital relations, as well as CBRN protection and training of security, cyber skills within the education industry, the healthcare and medical industry. Today, Pertti focuses primarily on using his wide professional experience to provide consulting services for the Military, Education, Cyber, Healthcare, and Government business segments.

Thailand Chapter

Kittithat Pacharoen

Air Vice Marshal

Office of the Permanent Secretary For Defence Expert

Senior Consultant of Drone Association of Thailand

President of World UAV Federation– Thailand Chapter
ciation of Thailand

President of World UAV Federation– Thailand Chapter

Belgium Chapter

Patrick Mascart

Mr. Patrick Mascart began his career as a pilot and instructor recognized by the Belgian Civil Aviation Administration. He followed many European projects and was particularly interested in the future European Drone Regulation. He is currently a consultant for many companies and regional governments. President of the Belgian civil drone federation, CIO of the start-up Drone4Care and since last year Manager of ID2Move.

Colombia Chapter

Rafael Antonio Padilla Cepeda

Mr. Rafael Padilla was graduated from Javeriana University with a degree in industrial engineering. He is proficient in marketing and negotiation. He worked as a maintenance engineer at Avianca after working for Anixter (Colombia National Airlines) company in Colombia and Ecuador. He is currently the founder and vice president of the Colombian Drone Association, the founder of the Aviacion Robotica organization, and the Colombian drone operator. He is also a consultant for national and local governments and civil aviation, a member of AUVSI and UVS.

Netherlands Chapter

Igno Breukers

Mr. Igno Breukers, master in Spatial Sciences with a specialization in GIS from the University of Groningen in the Netherlands. His experience in Sensor technology started over 10 years ago and his involvement in Strategic Management in Imaging Technology Manufacturing since 2010. In 2014, by taking on the role as Chief Commercial Officer of Quest Group, his full immersion into state of the art (UAV) multispectral and hyperspectral imaging applications combined with a GIS background he built on developing a true dedicated professional multispectral imaging application for vegetation health and crop analysis. This led to the establishment of DB2 Vision and the introduction of the LaQuinta Multispectral Crop sensor as the world's most fully featured, yet lowest cost professional Precision AG camera.

Romania Chapter

Emil Valentin Olea

Mr. Emil Valentin Olea is Director General of Medias Special Aeronautics Workshops and Aeronautical Inspector of Romanian Civil Aeronautical Authority. He is working in various positions in the aviation industry, ranging from ground operations, security, aeronautical inspector, economic regulator and drone enthusiast, I managed to gather and now try to implement my working experience in helping others deal with potential challenges the UAV domain might offer and try to offer a solution to rising problems.

PRESIDENTS OF WUAVF CHAPTERS

Japan Chapter

Kenzo Nonami

Dr. Kenzo Nonami has been a full professor in the Department of Mechanical Engineering at Chiba University since 1994. Dr. Kenzo Nonami was in charge of the Vice President of Chiba University from 2008 to 2013. Right now, Dr. Nonami is an emeritus professor at Chiba University, CEO of his company called "Autonomous Control Systems Laboratory, Ltd." and a Chairman of Japan Drone Consortium which includes more than 300 companies. His recent research interests are fully autonomous drones, namely, fully autonomous unmanned multi-rotor helicopters and VTOLs as UAVs with GPS or GPS-denied environments, advanced robotics, and mechatronics.

Turkey Chapter

Haydar Ates

Asst. Prof. Dr. Haydar ATES, PhD, is from Ankara, Turkey. He is the faculty member of the University of Turkish Aeronautical Association, the first institution of its kind on aviation and space sciences in turkey. His focus is on management. His PhD is from Hacettepe University, Ankara, Turkey. He has lots of books in Turkey, book chapters in the USA and Switzerland, and articles published in the international area. Dr. Haydar ATES also served in the Turkish Army as an officer and retired as Colonel. During his career he commanded national and multinational troops and organizations in conflict areas around the world, such as Multinational Force Commander in West Bank, Palestine, NATO ISAF (International Security Assistance Force) Central Commander in Afghanistan, etc.

Italy Chapter

Paolo Bellezza

Paolo Bellezza Quater is a graduate of Mechanical Engineering from the Politecnico di Torino. He began his professional career in the family business ARIS Spa. In 2006, he founded the company NIMBUS srl. CEO of "Nimbus srl", CEO of "ASA srl", Directors board member of "A.R.I.S. Srl", Directors board member of "GPS Srl", Directors board member of "API Torino" SME Association, Member of DAP Piedmont Aerospace District, Member of CONFAPI Italian Private Small Medium Enterprise Confederation, Member of AIAD Italian Industries Federation for Aerospace, Defence and Security, Member of EBT Exclusive Brands Torino, President of "UASit" Italian UAV Association, President of Italian chapter of World UAV Federation.

Nepal Chapter

Suneel Kumar Shrestha

Mr. Suneel Kumar Shrestha is involved in Fire & Security System Business for 2 decades after graduation in Management from Tribhuvan University, Nepal. He has trained many engineers on Fire Safety and the implementation of the system in Nepal. He has been involved to make aware of fire & safety in the industry with partnership has worked in the government sector as well. He has established the Association ASIA PACIFIC SECURITY ASSOCIATION – Nepal with the hope of establishing mutual partnership internationally on the field of safety and security and giving equal opportunity to the Nepalese and the stakeholders who are working as safety experts in Nepal.

Philippines Chapter

Jones Lim (Deceased)

Safety practitioner/advocate for more than 35 years 1981 Presidential Citation awardee of SOPI Former DTI Technical committee member FM (Factory Mutual) GLOBAL trained. Safety Consultant for various PEZA locators and domestic companies. Innovator of ECO-FES and CD-NEO 1 certified fire suppressants certified by MPA Germany for performance and KFU also in Germany for being non-toxic and eco-friendly. Development consultant for research and design of Wolf Security Technology Co., Ltd. Public Safety Director of Txtfire Philippines Foundation Inc.

Poland Chapter

Andrzej Mochon

President of Board at TargiKielce, Honorary Consul of the Federal Republic of Germany in Kielce. Andrzej Mochon PhD is the President of Board at TargiKielce, the Honorary Consul of the Federal Republic of Germany in Kielce. Mr Mochon obtained his doctor degree in geology at Warsaw University. From 1993 to 2003, he worked at the Swietokrzyskie Agency for Regional Development, for many years in the capacity of the Agency's President. In 1996, he was appointed the President of the former Kielce Exhibition Centre, today's Targi Kielce. Mr Mochon is one of the originators of the International Defence Industry Exhibition – Kielce's flagship trade-show. Since 2006.

PRESIDENTS OF WUAVF CHAPTERS

Vietnam Chapter

Tran Trong Vinh

Tran Graduated from Hanoi University of Science and Technology, Worked for Vietnam Academy of Science and Technology, advanced training in nuclear electronics in Germany, Research about surveillance and security in Poland, Russia, Germany. he is president of Silver Sea JSC. he is president of APSA Vietnam. Silver Sea JSC is a leading company in the security surveillance industry in Vietnam, is distributor of many famous brands in the world. APSA Vietnam implemented many activities focus on transfer modern security technology into Vietnam as organized seminar, training, exhibition about security in Vietnam. Advisor for Ministry of Public Security, Ministry of Defense, Ministry of transportation, build solutions to ensure national security.

Germany Chapter

Jan Syré

2016–present : Member of the board, BUVUS – Federal Association for Unmanned Systems. BUVUS is a network and advocacy group for the professional use of unmanned systems on land, water and in the air.

1998–present: Safe Civil Engineering Association, Political representative
The Safe Civil Engineering Association is the commitment of operators of supply networks and KRITIS to maintain security of supply and relevant infrastructures in Germany and parts of the EU.

1994– present :Owner of Syré strategy & communication.

China Hong Kong Chapter

Zhenqiang Ren

DRONE WORLD CONGRESS

The Drone World Congress has been successfully held for six times in Shenzhen in June 2017, June 2018, June 2019, September 2020, May 2021 and July 2022. Thousands of industry experts, scholars, and company leaders participated in the congress who came from more than 100 countries and regions around the world. At the same time, more than 200 domestic and foreign companies demonstrated new products and technologies of drones and unmanned equipments. The exhibition areas exceeded 20,000 square meters. More than 30 forums were widely praised by domestic and foreign industries. The congress will focus on global key research and application areas of UAVs and innovation in safety supervision, carry out academic exchanges at high-level and display the latest results; build a collaborative innovation platform

worldwide; and explore the profound impact of UAVs on social development. The congress will focus on three highlights of internationalization, specialization and marketization through various activities such as theme conferences, product demonstrations, and international competitions.

To fully demonstrate the innovative feats of UAV and UAS, AI technology used in the prevention and emergency rescue, The Drone World Congress 2023 and the 8th Shenzhen International UAV Expo will be held in May 2023. The organizing committee sincerely invites you to attend the congress and showcase your latest products and technologies at the exhibition areas.

2022 The 6th

GLOBAL UAV CONTRIBUTION AWARD

In recognition of the outstanding contributions to global UAV industry, All candidates are global experts from internationally recognized UAV industry organizations, entrepreneurs and the award will be published annually.

Concerning objective standards, strict audit regulation, high degree of credibility and authority of the award, the evaluation of the final winner of the 'Global UAV Contribution Award' will focus on the following 8 aspects mainly: technology innovation, environmental protection, social responsibility, corporate influence, brand awareness, personal charm, company market share proportion and contribution to global UAV industry development.
